

TANAT TO PERRY COMMUNITY WILDLIFE GROUP

**In 2021 we found 10 - 17 pairs of Curlew
and over 30 pairs of Lapwing.
Both have declined a lot in recent years,
but we think there are more to find.**

**We need more helpers for our survey, please. It's easy
to do, and only takes 3 half days
between March and June.**

**If you can help, or you're interested in
finding out more about these birds,
please come to the meeting**
