

**Upper Onny Wildlife Group**  
**Curlew Territories 2023**  
 (All Surveys and Casual Records)

**Population Estimate: 21 breeding pairs, and five possible additional pairs, in the core area, plus 2 in SO39E (Square 0), and 2 in SO49I (Square 10A). There were also two pairs on Pole Bank in SO49C, located by the Long Mynd Breeding Bird Survey. None have been recorded in this square previously since UOWG started surveying in 2004.**
