

Community Wildlife Group

We look for, observe, record, and enjoy wildlife

Main Programme These are mainly outdoor field meetings, usually a walk, each of which will have a main aim, but also an opportunity to simply “see what we find”. **Full details will come to you by email shortly before each event.** Weather sometimes causes late change, and dates for some events will be announced nearer the time.

OCTOBER	Date TBA	Fungi Walk – Oak Farm, Ditton Priors
	Date TBA	Bryophyte day - Oak Farm, Ditton Priors
DECEMBER/ JANUARY	Date TBA	Winter Bird Walk

“Pop-up Events For us to go looking for certain wildlife, or for us to venture “up the hill”, the weather conditions have to be right. In these cases, rather than fix dates in advance, you will receive an email giving details at short notice. Look out for emails relating to **dragonflies, bilberry bumblebees, bats, moths, and upland plants (e.g. Bog Asphodel and Mountain Pansies).**

Moth Mornings Miles would like to set up a moth trap at different locations, and at different seasons. Can you offer a venue? Must have an electricity supply. Fix a date with Miles, milesleach712@gmail.com which will be circulated to all members, who can arrive early morning to view and identify trap contents, and drink coffee!

Our Group owns a **Bat Detector**. If you would like to make use of it, contact Miles, milesleach712@gmail.com

Ongoing Recording News is always welcome of interesting wildlife observations. Please note **date, species, number, location (with 6 or 10-fig map reference) and any comment**. Send this to the appropriate person, who will enter it in Group records, and forward to the County Recorder where of interest.

Birds, Moths & Dragonflies: Miles, milesleach712@gmail.com

Mammals: Pam, pambolathom@hotmail.com

Plants: Karl, karl94694@gmail.com

Fungi: Mariel, dmdelubman@hotmail.co.uk
